| <p>C84-097743</p> <p><u>CLAIMED ARTICLE</u><br/>         The towel (1) is formed with a parallel centre length be-<br/>         tween a trapezoidal, front area (2) and a divergent rear<br/>         area (4) with chamfered and radused outer edge. When folded<br/>         in place upon the user, the towel assumes he form of pantie<br/>         briefs.<br/>         The towel has an absorbent inner layer inside an external,<br/>         waterpr of plastic cover. The front and rear areas are each<br/>         provided with a patch (7 &amp; 8) of pressure-sensitive adhesive<br/>         to fix directly to the skin.</p> <p><u>ADVANTAGES</u><br/>         The towel is compact and comfortable and of neat appear-<br/>         ance. It is esp. useful overnight when it is not as likely to be<br/>         disl dged as one fixed inside panties (3pp448WADwgNo1/2)</p> |  <p>CH-643730-A</p> |
